

## The iPad briefing    Tips and tricks to efficient pre-flight prep with iPad apps

Have you ever hit the "get briefing" button and had your eyes glaze over at the flood of information your favorite app gives? Come to this discussion where we'll hear how instructors are incorporating some simple methods to get a lot of useful information quickly.

Our primary focus will be on ForeFlight and FltPlanGo along with several ways you can set up your iPad to help you obtain some very useful information. We'll also go over a few tips and tricks that might make your life easier.

At the end of our 45 minute talk you'll be invited to participate and hear about your fellow pilots' favorite digital toolkits.
